8 Channel NVR | Real-Time | 720P

QC818

Watch over your home or asset in 1080p resolution when you chose the surveillance protection offered by the QC818 NVR. The QC818 NVR offers detailed 1080p recording resolution in a sleek 1U case with 8 POE ports, which eliminate the need to run separate power and video cables with each camera. Easily connect up to 8 cameras remotely or directly and experience resolution that, at reasonable distances, allows for the recognition of actions, objects and even license plates. An HDMI® port and included standard HDMI® cable allow you to take advantage of the clarity offered by this impressive state-of-the-art recorder.
The Q-See NVR's ultimate benefit is the flexibility it affords through its ability to operate and connect to remote IP cameras. A Q-See NVR can either record the cameras directly connected to it or the cameras connected to it over a network. Across the street or across the world, the QC818 offers an extra layer of security by allowing you to separate and secure the vital recordings stored in the NVR in a separate location from the cameras

FEATURES:

- 8 Channel NVR with HD Recording
- Records Remote or Local Cameras
- 8 Power Over Ethernet (POE) Ports
- HDMI® Port for High Resolution Viewing
- Free Q-See Apps for iPhone, iPad, Android and Windows Phone
